New Interdisciplinary Ph.D. Program

Application Deadlines
December 8, 2016 & February 15, 2017
for Fall 2017 start date

CARING FOR OUR OCEAN. The Ph.D. Program in Ocean Science & Engineering (OSE) will educate the next generation of transdisciplinary ocean scientists and engineers by combining the basic and applied sciences with innovative ocean technologies, and will advance interdisciplinary research at the frontiers of the physical, biological, chemical and human dimensions of ocean systems.
