Undergraduate Research Opportunity in LORIS Lab

Summary of project(s):

Research positions are available for highly motivated undergraduates on the topic of algorithms for reliable data communication and data storage in the Laboratory for Robust Information Systems (LORIS), directed by Prof. Lara Dolecek. Undergraduate researcher(s) will work closely with my graduate students and me on a federally funded research project. This is a very nice opportunity for students to gain research experience, especially for those looking to apply to premier PhD programs. Stipends available!

Website: http://www.loris.ee.ucla.edu/

Required/recommended:

　　GPA>=3.7, High grade in Probability Classes, and experience with MATLAB.

Date Position Available:

Current quarter – possibility for summer research position

How to apply:

The student should contact Prof. Dolecek with the subject line [UCLA undergraduate interested in LORIS research]

Contact: **dolecek@ee.ucla.edu**
