

# Crystal DeWeese

## About Me

My name is Crystal DeWeese, and I'm from Orange County, CA! I graduated from Brea Olinda High School, and I'm studying electrical engineering here at UCLA. Outside of class, I am part of the UCLA Women's Ultimate Frisbee team, and I also enjoy staying active and visiting Disneyland!

## Why UCLA ECE?

My first exposure to engineering was building a pool noodle marble rollercoaster in second grade, and I thought it was so much fun. I wanted to continue with engineering, so I joined robotics in junior high and was part of a 4-year programming pathway at my high school. I specifically chose ECE because my brother is currently getting his PhD in the ECE department, and hearing his experience motivated me to study in the same field. I chose UCLA because I wanted to attend a large school, and I really liked the academic and social culture.

## Future Plans

As far as career goals, I plan to pursue a master's degree and work in industry, but I'm not sure what field I want to get into specifically.
