

Forrest Allen

Hello! My name is Forrest Allen, and I was born in Fremont, California. I moved to Sunnyvale when I was 5 and moved again to San Diego when I was 8. I went to Rancho Bernardo High School, and I have an older sister. Outside of school, I'm interested in movies, games, music, water polo, and hiking.

In high school, I really enjoyed all my STEM classes, especially AP Physics E&M and AP Computer Science A. I really enjoyed puzzle solving, whether it be in a puzzle game or in a project. One of my favorite high school memories was working on a game for my computer science class with a group of friends. There were tons of issues and setbacks, but I really enjoyed the process of overcoming each obstacle and eventually having a product which I'm proud of. I ended up choosing ECE because I found E&M to be the most interesting subject. I also thought that Electrical Engineering was a very broad field and that I would have an opportunity to learn from a large range of topics.

I chose UCLA because of the high quality of the education and because of how kind and welcoming people are. I feel like I've made some good friends and I really appreciate the supportive community here. I'm very glad that I chose UCLA.

I plan on getting a Master's Degree, and then I hope to work in a tech company. I'm not sure what specific area of ECE I want to work in yet, but I hope to help create something that meaningfully leaves positive impacts in people's lives.
