The Department of Engineering at Harvey Mudd College invites applications for a one-year visiting position for the 2021-22 academic year with the possibility of extension to a second year. The successful candidate will teach introductory electrical circuits and transistor-level analog circuit design, will be part of the sophomore systems engineering teaching team, and will advise a capstone design Clinic project team.

The successful candidate will also have the opportunity to involve students in original research. A Ph.D. in Electrical Engineering or a related field and a demonstrated passion for teaching are required. Demonstrated ability to effectively teach students from diverse backgrounds will be considered among the criteria for appointment and should be addressed in the application. Interested candidates should submit a curriculum vita, statement of interest, and list of three references (with at least one who can address your teaching ability) https://academicjobsonline.org/ajo/jobs/18185. The search committee will begin reviewing applications on March 26, 2021 and will continue until the position is filled.
