

Justin Luc

Intro:

Hello! My name is Justin Luc, and I am studying Computer Engineering. I am from Orange County, where I graduated from Sunny Hills High School. My hobbies include sewing, video games, going to concerts, and collecting trinkets.

Why ECE?:

I knew I wanted to pursue Computer Engineering because I have always been interested in computers. Ever since my dad brought home our first home computer, I have been fascinated by it. I have been involved with robotics since elementary school, participating in both VEX and FRC.

Why UCLA?:

UCLA is located in one of the largest cities in the country, with nice weather and a diverse population. There is a lot of food, and the beach is only a 20-minute drive away. The faculty at UCLA is world-renowned, and there are so many opportunities to learn and explore.

Career Goals:

Currently, I plan to go into industry after graduating. I hope to work at a tech company, specifically in chip design or embedded systems. I do not have plans for graduate school at the moment, but that may change in the future.
