

Hi, I'm Megan Chen and I am an electrical engineering major at UCLA. I grew up and attended high school in the San Francisco Bay Area.

In my free time, I enjoy video games, playing tennis, playing violin, reading, watching YouTube and movies, traveling, and spending time with my family.

I am excited to deepen my studies in electrical engineering, as I have been interested in this field since I was a child, as computers and technology have always intrigued me. I am glad to be here with my fellow engineering students, and can't wait to work hard and learn more about electronics for the next four years.
