

Ronit Barman

UCLA Fast Track '28

Intro

Hello! My name is Ronit Barman and I'm an electrical engineering student at UCLA. I grew up in the Bay Area, living in Daly City until I was 10, when my family moved to Millbrae (another city in the Bay Area). There, I graduated from Mills High School. Some of my hobbies include piano, guitar, badminton, and basketball.

Why ECE at UCLA?

Throughout my life, I've always been interested in problem solving and STEM. Early on, math was one of my favorite subjects, and as I grew older, I also became interested in computer science and physics. I also loved building and designing things. In high school, being part of the robotics team cemented my interest in engineering.

I chose UCLA specifically because its engineering program is one of the nation's best. In addition to this, I felt that the student culture was very supportive and created a welcoming environment.

Career Goals

After finishing my bachelor's, I plan to pursue a Master's degree and possibly an MBA. In terms of my career, I hope to be able to work on designing and engineering products, be it at a startup or a major tech company. Overall, I'd like to use my engineering degree to improve people's lives.
