

# Yann Menard

UCLA Fast Track - Class of 2029

Hi!

My name is Yann, I grew up in the bay area, but I'm originally from France. I went to Lycee Francais de San Francisco, a French immersion school.

I'm majoring in Electrical engineering, I hope to pursue a master and specialize in semiconductors and hardware design. I chose UCLA because of its top EE program and the nice weather and community.

Outside of school I love cycling, kite surfing, video games and spending time with friends. In high school I built multiple PCs with friends. I also participated in Model UN going to New York for an event.
